TRANSACTIONS
of the
ILLUMINATING ENGINEERING SOCIETY

Volume 33 (Nos. 1-4) 1968

CONTENTS

	Page
Presidential Address: Lighting for Leisure and Pleasure, by H. Carpenter	1
Discomfort Glare and Visual Performance, by P. T. Stone and S. D. P. Groves ..	9
National Illumination Committee of Great Britain	16
Industrial Lighting Design and its Financial Evaluation, by G. P. Cundall and J. S. Humphreys	27
Inter-relationship of the Design Criteria for Lighting Installations, by P. A. Jay ..	47
The Spectral Power Distribution of Daylight, by A. W. S. Tarrant	75
Artificial Daylight Sources, by S. T. Henderson	83
The Effect of Lantern Light Distribution on Subjective Assessments in a Street Lighting Installation, by G. Mainwaring and A. G. Stainsby	98
Lighting in Architectural Education, by Lyall Addleson and James Bell	119
The Environmental Design of Buildings, by J. T. Redpath	141
Ergonomics of the Environment, by P. T. Stone	150
Lighting in Relation to other Components of the Total Environment, by Peter Manning	159

Authors' Index

		Page
ADDLESON, L.	Lighting in Architectural Education	119
BELL, J.	Lighting in Architectural Education	119
CARPENTER, H.	Presidential Address: Lighting for Leisure and Pleasure	1
CUNDALL, G. P.	Industrial Lighting Design and its Financial Evaluation..	27
GROVES, S. D. P.	Discomfort Glare and Visual Performance	9
HENDERSON, S. T.	Artificial Daylight Sources	83
HUMPHREYS, J. S.	Industrial Lighting Design and its Financial Evaluation..	27
JAY, P. A.	Inter-relationship of the Design Criteria for Lighting ..	47
MAINWARING, G.	The Effect of Lantern Light Distribution on Subjective Assessments in a Street Lighting Installation	98
MANNING, P.	Lighting in Relation to other Components of the Total Environment	159
REDPATH, J. T.	The Environmental Design of Buildings	141
STAINSBY, A. G.	The Effect of Lantern Light Distribution on Subjective Assessments in a Street Lighting Installation	98
STONE, P. T.	Discomfort Glare and Visual Performance	9
	The Environmental Design of Buildings	150
TARRANT, A. W. S.	The Spectral Power Distribution of Daylight	75
